Message:	<p>Mr. Blodgett,</p> <p>I support the proposed Tongue River Railroad, and the Western Alignment. The development of this railroad will have a significant economic impact on our area. The increased tax base will improve our schools and infrastructure, which we desperately need. These high paying jobs would be a welcome relief for the distressed job situation in this area.</p> <p>The development of the coal resources, which would be a result of the railroad, is good for this area and the nation as a whole as we look for ways to become less reliant on foreign sources of energy.</p> <p>The large majority of the people in this area support this railroad and the development of the coal resources.</p> <p>Thank you,</p> <p>Monty Lesh</p>
